Reader! have you a cough, which you are clothing, Hardware, Queensware and Groceries neglecting under the idea that it is only a common cold, and that it will soon "wear itself out ?" Let a friend tell you, in all kindness, o7 what will soon be the probable result. In short time, if you continue to neglect yourself, you will begin to feel a sense of tightness and oppression across the chest, accompanied with frequent sharp darting pains. Then a dry hacking cough will set in, and when you raise anything it will be a thick and yellowish, or white frothy matter, streaked perhaps with blood. If you still take no medicine, these unpleasant symptoms will increase, and you will soon have heetic fever, cold chills, night sweats, copious expectoration, and then great prostra-tion. If you still neglect yourself, a few weeks or months will see you consigned to the grave, Penri Street, West of Broadway. leaving your friends to mourn how rapidly THOMAS N. The editor said, Dec. 22nd : Dr. Hoofland's Celebrated German Bitters for the cure of liver complaint, jaundice, dyspepsia, chronic or nervous debility, is deservedly one of the most popular medicines of the day. Bitters have been used by thousands, and a friend at our elbow says he has himself received a permanent cure of liver complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor -- a fact worthy of great consideration They are pleasent in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. As such is the case we would femule weakness. As such is the case we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor, is, that there is more of it used in the practice of the regular Physicians of Philadelphia, than all other nostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented
